NEW MEXICO STATE PLAN FOR ALZHEIMER'S DISEASE AND RELATED DEMENTIAS UPDATE OVERVIEW

Since the creation of the original New Mexico State Plan for Alzheimer's Disease and Related Dementias in 2013, progress has been made in the implementation of Plan goals and strategies. During this same time period, the number of people with Alzheimer's disease and the number of family caregivers has continued to increase. According to the Alzheimer's Association® 2017 Alzheimer's Disease Facts and Figures, New Mexico is estimated to have 38,000 individuals requiring unpaid care from 106,000 family members, friends and neighbors. The number of New Mexicans with the disease is projected to increase to 53,000 by 2025.

The Office of Alzheimer's and Dementia Care and a State Dementia Plan Leadership Team were established by the NM Aging and Long-Term Services Department in the spring of 2014. The Leadership Team immediately set to work to determine priorities and form sub-committees to assist in enacting the goals and strategies contained in the Plan.

In October of 2016, a larger stakeholder group was convened to review current Alzheimer's and caregiver data, as well as progress made towards achieving State Plan goals and strategies. The group also provided input to update the Plan. This input was then synthesized into recommendations, and the goals and strategies were revised to reflect the progress and input. Final recommendations were reviewed by the State Dementia Plan Leadership Team and Aging and Long-Term Services Department Acting Cabinet Secretary, Kyky Knowles.

The following reflects the work of many New Mexicans who are committed to continuing the work outlined in the State Dementia Plan. The Aging and Long-term Services Department is very grateful for their time, effort and service.

ABOUT ALZHEIMER'S DISEASE

National Facts and Figures

2017 ALZHEIMER'S DISEASE FACTS AND FIGURES

MORE
THAN

15 MILLION AMERICANS
provide unpaid care for people with
Alzheimer's or other dementias

IN
2016

these caregivers provided
an estimated
18.2 BILLION HOURS
of care valued at over
\$230 BILLION

In 2017, Alzheimer's and other
dementias will cost the nation
\$259 billion
By 2050, these costs could
rise as high as

\$1.1 TRILLION

35% of caregivers for people with
Alzheimer's or another dementia
report that their health has gotten worse
due to care responsibilities, compared to
19% of caregivers for older people
without dementia

1 IN 3
seniors dies
with Alzheimer's or
another dementia

Since 2000, deaths
from heart disease have
decreased by **14%**

while deaths from
Alzheimer's disease have
increased by **89%**

ALZHEIMER'S DISEASE IS THE
6TH LEADING CAUSE
OF DEATH IN THE UNITED STATES

MORE THAN
5 MILLION
AMERICANS ARE
LIVING WITH
ALZHEIMER'S
BY 2050, THIS
NUMBER COULD
RISE AS HIGH AS
16 MILLION

EVERY

SECONDS

someone in the
United States
develops the disease

**IT KILLS
MORE THAN**
breast cancer
and prostate cancer

NUMBER OF ALZHEIMER'S AND DEMENTIA CAREGIVERS, HOURS OF UNPAID CARE, AND COSTS OF CAREGIVING

Year	Number of Caregivers	Total Hours of Unpaid Care	Total Value of Unpaid Care	Higher Health Costs of Caregivers
2016	106,000	121,000,000	\$1,531,000,000	\$70,000,000

cognitive decline in new mexico

DATA FROM THE 2013 BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM

In New Mexico, 13.2 percent – more than one in eight – of those aged 45 and over report they are experiencing confusion or memory loss that is happening more often or is getting worse.

More than 70 percent of them have not talked to a health care professional about it.

For those with worsening memory problems, nearly half say it has interfered with household activities and/or work or social activities.

Percent with memory problems who have not talked to a health care provider

Percent of Those Aged 45+ Reporting Worsening Memory Problems in Previous 12 Months

All	Gender		Age				Educational Attainment			
	Men	Women	45-54	55-64	65-74	75+	< High School	High School	Some College	College Grad
13.2%	13.9%	12.4%	12.0%	14.5%	10.6%	16.3%	14.5%	14.7%	14.4%	9.2%

Percent with memory problems who say it created difficulties and burden

This Fact Sheet is supported by Cooperative Agreement #NU58DP006115-01 from the Centers for Disease Control and Prevention (CDC). Its contents are solely the responsibility of the Alzheimer's Association and do not necessarily represent the official views of the CDC.

Percent with memory problems who live alone

Percent with memory problems who have at least one other chronic condition*

*Defined as arthritis, asthma, COPD, cancer, cardiovascular disease, and diabetes

STATE DEMENTIA PLAN MILESTONES

Goal 1: Develop an Adequate Network Structure

- ✓ The Office of Alzheimer's and Dementia Care was established.
- ✓ The State Dementia Plan Leadership Team was established with membership from area agencies on aging, the NM Department of Health, the NM Human Services Department, the University of NM Memory and Aging Center, the NM Health Care Association and interested stakeholders. The team meets quarterly to enhance communication and collaboration to further the impact of the State Plan.
- ✓ State Plan Leadership Team members provide presentations at state-wide workshops and conferences.
- ✓ A NM Governor's Alzheimer's Leadership Award was established in 2014 and is presented each year.

Goal 2: Raise Public Awareness and Expand Dementia Resource Connections

- ✓ A six-month public awareness campaign was conducted. The campaign included public service announcements through TV, radio and written mediums, and promoted the Aging & Disability Resource Center as a gateway to learning about dementia resources and services.
- ✓ The Office of Alzheimer's and Dementia Care distributes a monthly newsletter. Resource publications have been developed and posted on the Aging and Long-Term Services Department website and provided at a variety of public educational venues, including the NM Conference on Aging.
- ✓ The NM Department of Health developed "brain health" messaging, including a public service announcement: "10 Ways to Love Your Brain".

Goal 3: Support and Empower Caregivers

- ✓ Evidence-based caregiver training programs—Savvy Caregiver, Cuidando con Respeto, and Savvy Caregiver in Indian Country—are provided state-wide.
- ✓ A cadre of volunteer Savvy Caregiver trainers was, and continues to be, recruited and supported statewide.
- ✓ Family Caregiver Conferences continue to be held in various locations across the State.
- ✓ The City of ABQ/Bernalillo County AAA sponsored two semesters of "Caregiver College" at Central New Mexico Community College.
- ✓ A report "Respite in New Mexico" was compiled and distributed to State Plan Leadership Team Members.
- ✓ "Adult Day Services in New Mexico 2015", a study conducted by New Mexico State University was completed.

Goal 4: Expand Research Opportunities in New Mexico

- ✓ The Alzheimer's Association, NM Chapter, sponsors annual Professional Conferences.
- ✓ 2013 NM Behavioral Risk Factor Surveillance Survey (BRFSS) Cognitive Impairment data was published.
- ✓ The NM Department of Health included a Cognitive Impairment module in the BRFSS 2016 survey and a Caregiver module in the BRFSS 2017 survey.

Goal 5: Support Education and Training for a Dementia-Competent Workforce

- ✓ The University of NM Memory and Aging Center established a working relationship with the State Dementia Plan Leadership Team and the Aging and Long-Term Services Department.

Goal 6: Promote Quality in all Aspects of Alzheimer’s Disease Care, Education, Public Awareness, and Research

- ✓ An inventory of NM Dementia-Specific Training Regulations for Home and Hospice Care, Nursing Homes, Assisted Living Facilities, Intermediate Care Facilities, and Adult Day Services was completed. A “Quality of Care” resource handout is available on the Aging and Long-Term Services Department web site.

STATE DEMENTIA PLAN GOALS AND STRATEGIES UPDATE

Goal One

Maintain an Adequate Network Structure

To address the crisis of Alzheimer’s disease on an ongoing basis and to ensure deliberate implementation of this State Plan, the Aging and Long-Term Services Department has established an Office of Alzheimer’s and Dementia Care to execute the Plan and ensure accountability for its implementation through the following:

1. Continue to identify and disseminate current resource information and enhance communication and collaboration among resources in a manner which maximizes their impact in all areas of the State Plan, including:
 - a. Meeting Caregiver Needs,
 - b. Elevating Quality of Care,
 - c. Broadening Public Awareness of Dementia and Available Resources,
 - d. Matching Health Care System Capacity to Consumer Need, and
 - e. Increasing Research Effectiveness.
2. Continue to serve as an advocate and champion for policies, funding and structure to improve public awareness, research, quality, caregiver support, and health care system capacity to address the needs of those with Alzheimer’s disease and related dementias in New Mexico, and their caregivers.
3. Continue to facilitate the State Plan Leadership Team, made up of representatives from interested public agencies, private organizations and other stakeholders, to guide and support the work of the Office of Alzheimer’s and Dementia Care.
4. Continue to update the State Dementia Plan to align with the National Alzheimer’s Plan, the NM State Plan for Family Caregivers, and issues relevant to New Mexico; working with the State Plan Leadership Team to develop and implement the goals and strategies of the State Plan.
5. Establish an annual work plan to facilitate implementation of the goals and strategies in the State Plan to include appropriate evaluation metrics to measure success of the goals and strategies.
6. At least annually, review progress toward achieving the goals and strategies of the State Plan, in collaboration with the State Plan Leadership Team.

Goal Two

Raise Public Awareness and Expand Dementia Resource Connections

In order to reduce the stigma of dementia, support caregivers, increase awareness and encourage advocacy across the state's diverse cultures and locations, public awareness activities are conducted with a wide range of partners as follows:

1. Coordination, collaboration, and inter-entity communication is encouraged and developed with public, private, local, state, tribal and federal entities to advance Alzheimer's readiness and dementia capable systems.
2. Public awareness campaigns are conducted, to include New Mexico's ethnic, cultural, and linguistic diversity.
3. Access to culturally appropriate resources and supports for family caregivers and others caring for, or treating, individuals with Alzheimer's disease and related dementias is facilitated.
4. In cooperation with the NM Department of Health and other partners, the benefits of healthy lifestyle choices in the prevention of Alzheimer's disease is emphasized, including the benefits of exercise and healthy eating, and the proper treatment of chronic conditions.
5. In partnership with the NM Public Education Department curricula for elementary and secondary schools regarding Alzheimer's disease and related dementias is being developed.
6. Resource information and access to supports for people living alone with Alzheimer's disease is enhanced.
7. The availability of safety training and protections offered through the NM Department of Public Safety and local police departments, including Silver Alert, is publicized.
8. The need for timely financial planning and execution of medical advanced directives is promoted to the public.

Goal Three

Support and Empower Caregivers

In order to create an environment in which the needs of caregivers are addressed, the following activities are conducted:

1. Dissemination of information regarding culturally competent support services, including information on respite, care coordination, and case management services, in a time, manner, and location that meets caregiver and care-recipient needs.
2. Provision of evidence-based caregiver training in a manner that is effective across New Mexico cultures and locations.
3. Advocacy for the development of additional services to support caregivers in urban, rural, frontier and tribal communities throughout New Mexico.

Goal Four

Expand Research Opportunities in New Mexico

In order to address the need for research spanning all aspects of Alzheimer's disease and related dementias, the two New Mexico-based national laboratories, the University of New Mexico, New Mexico State University, other educational and research-based entities, the NM Department of Health, the Alzheimer's Association, New Mexico Chapter, and the NM Aging and Long-Term Services Department all work collaboratively to accomplish the following:

1. Maintain the New Mexico Alzheimer's Disease Coalition, a work group of researchers, health care professionals and stakeholders, facilitated by the Alzheimer's Association, New Mexico Chapter, to promote successful and collaborative medical, scientific and social research in New Mexico.
2. Conduct an annual research symposium incorporating medical, scientific, social, and behavioral research findings and approaches.
3. Study the incidence, impact, and other aspects of Alzheimer's disease and related dementias in New Mexico with a focus on the underrepresented among New Mexico's diverse rural, tribal and frontier populations.
4. Continue to identify and develop data sources and determine how best to ensure analysis and use of data.
5. Continue to actively seek sources of private and public funding in support of Alzheimer's disease and related dementia research in New Mexico.

Goal Five

Support Education and Training for a Dementia-Competent Workforce

In order to ensure widespread and continuing education for and among health care professionals and others invested in the fields of aging and long-term care, and in recognition of the increasing number of people with Alzheimer's disease and related dementias, the Aging and Long-Term Services Department and Office of Alzheimer's and Dementia Care partners with New Mexico higher education institutions and others to accomplish the following:

1. Support the University of New Mexico Memory and Aging Center and the New Mexico Alzheimer's Disease Coalition to foster widespread availability of expert knowledge and resources.
2. Expand education and training through collaborative efforts among New Mexico universities, branch colleges, community and technical colleges, private institutions, paraprofessional and professional associations and other training venues.

Goal Six

Promote Quality in all Aspects of Alzheimer's Disease Care, Education, Public Awareness, and Research

In order to foster the highest standards of quality in all aspects of care for Alzheimer's disease and related dementias:

We encourage entities engaged in addressing Alzheimer's disease and related dementias to:

1. Adopt the National Alzheimer's Association Dementia Care and Training Practices.
2. Develop and implement strategies to embed the practices in all service delivery systems.

We encourage New Mexico regulatory agencies to include dementia care training as a component of licensure and certification.
